

4 Channel Class D Amplifier 200 Watts DT404

AV Link DT404 is 4 channel class D digital amplifier specially designed for conferencing and speech lift applications. Its four channels are protected from short circuits. It works on 24 volts SMPS power supply and provides 50 watts output on each channel.

Power Output

1% THD – 50W RMS

Max – 200W

Outputs

4 isolated Speaker Outputs

min 4 Ω, 6 Ω, 8 Ω, or 70/100 volts

Inputs

4 isolated line Inputs

Line 300mV/14kΩ, balanced inputs

Frequency Range

80 – 15000Hz, ±3dB

S/N ratio

> 92dB

Power Supply

240V~/50Hz

External DC Supply

24V/9A

Dimensions (W x D x H)mm

300 x 200 x 65

Net Weight (Kgs.)

4.6
